Smart Health Consulting System

Introduction: The whole world is now in a state of panic cause of COVID-19. We have lost many lives in this pandemic. It is safer for us to be at home now. We have created a smart health consulting website (Sunshine Health Care) so that people can get treatment at home from the best doctors at minimum cost.

Required Hardware: Computer.

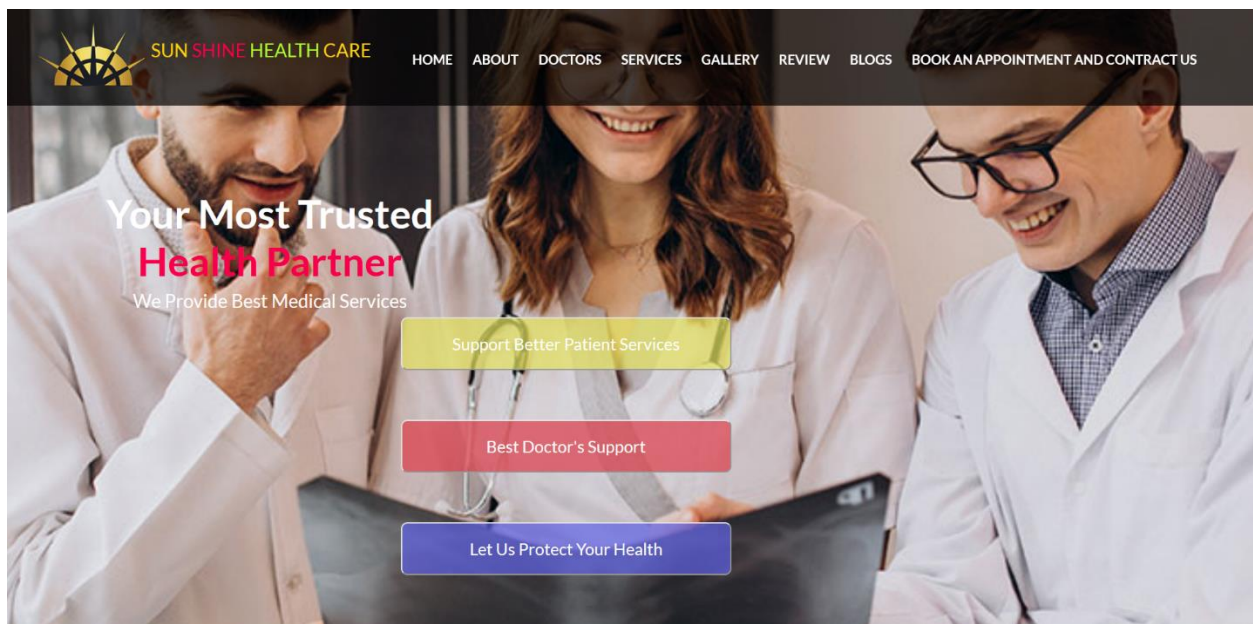

Required Software: Visual Studio Code, Google Chrome.

Language Used: HTML, CSS , JAVASCRIPT

Website link (Github):

<https://bijoydewanjee.github.io/Health-Care/>

Website's Homepage:

At the top part of the website there are logo at left corner and at right side you will find menu section Home ,About , Doctors , Services, Gallery, Blogs, Book an Appointment & contact Us .

About Us:

About US

WE Have Friendly & Expert's Doctors

Sunshine Health Care is the best health care in Chattogram, Bangladesh, confidently providing comprehensive diagnostic health care services. These services are provided by expert medical professionals, skilled technologists using state-of-the-art technology. The mission of Sunshine Health Care is to provide high quality international standard diagnostic healthcare which will meet the needs and exceed the expectations of the people of Bangladesh.

Big Dream

Becomes **World's No.1** Healthcare

To make an effective management plan for treating the patient, an authentic diagnostic report is an inevitable part. Consultants face a great deal in getting authentic medical diagnostic report as well as having lack of well decorated professionally managed consultant chambers at a suitable location in the commercial capital of Bangladesh, Chittagong. Sometimes a patient has to go to Dhaka or abroad to do the test due to unavailability which is time consuming and causes the financial burden for the patient & delay in getting the report, also delay in patient's treatment. Besides, a patient has to move from one diagnostic facility to another, as all facilities are not available under one roof. An emergency report is required mainly for the hospital admitted patient where prompt service is most desired but there is lack of these services in the city. Realizing these needs of consultant doctors, patient and the community with great care and anticipation to fulfill its social responsibility, Sunshine Properties Limited has devoted itself to establish a 'One Stop Medical Diagnostic institute' with a specialized Consultant chamber facility - "Sunshine Health Care Ltd"

What we have

Dedicated to providing multidisciplinary medical diagnostic and consultation services backed by state-of-the-art facilities, Sunshine Health Care offers team-based quality patient care that is widely acknowledged to be amongst the best in Bangladesh.

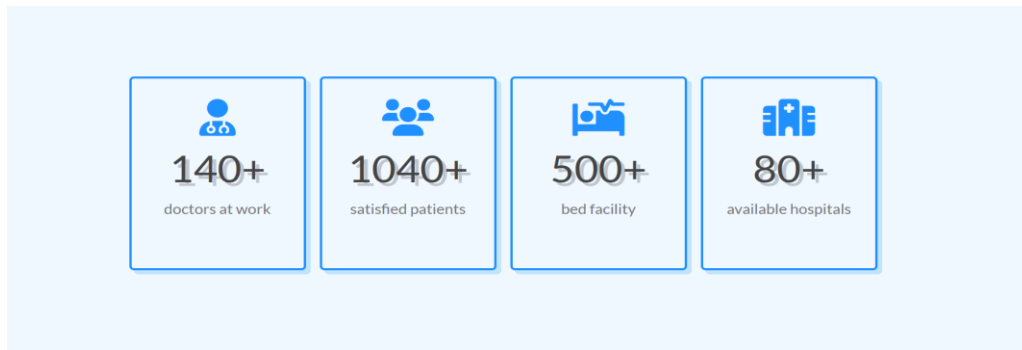

Quality never compromise!

To ensure accuracy, quality control is very much important for any medical diagnostic centre which wants to produce reliable reports. Currently we are working for ISO: 15189 accreditation which is used by medical laboratories in developing their quality management systems and assessing their own competence and for confirming or recognizing the competence of medical laboratories by laboratory customers, regulating authorities and accreditation bodies.

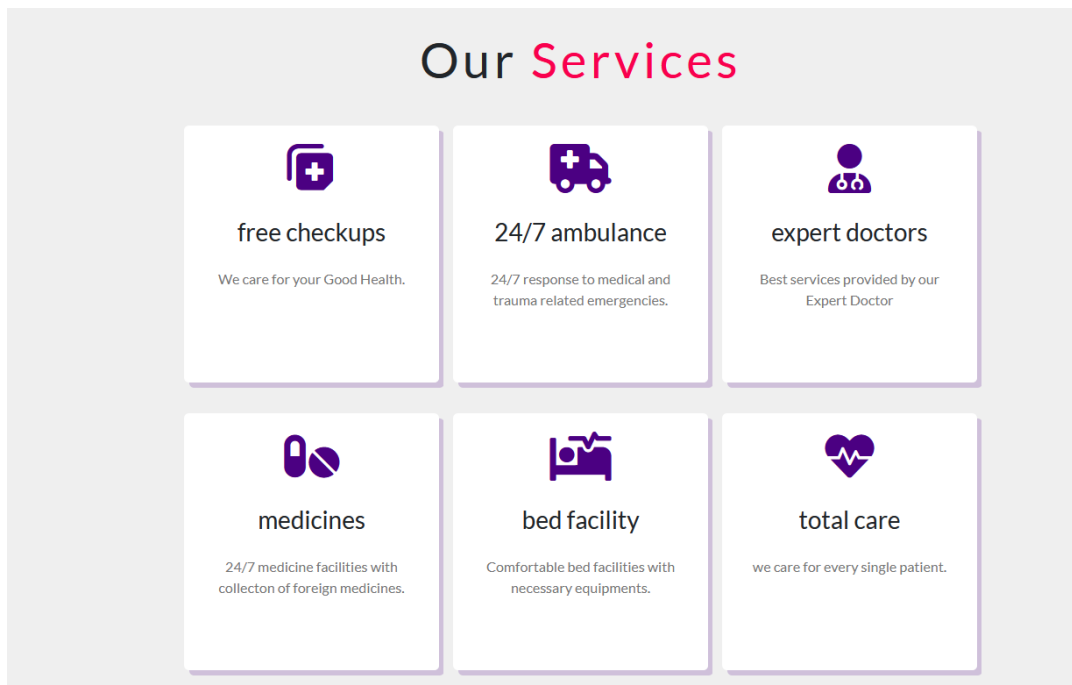

Our team

Sunshine Health Care Limited team consists of approximately 300 employees who are providing our patients with a comprehensive list of routine and specialized tests. Great care is given in selecting the suitable individuals to work at EHC, both on the administrative and technical levels. Sunshine Health Care Limited units heads are all renowned consultants.

Here we have discussed about our Sunshine health care center. Patients can get a proper idea about it. We discuss here our dream, what we have, quality, our team etc.

Doctors advice regarding Healthcare

18 May, 2022 Admin

Health care or healthcare is the maintenance or improvement of health via the prevention, diagnosis, treatment, amelioration, or cure of disease, illness, injury, and other physical and mental impairments in people. Health care is delivered by health professionals and allied health fields. Medicine, dentistry, pharmacy, midwifery, nursing, optometry, audiology, psychology, occupational therapy, physical therapy, athletic training, and other health professions are all part of health care.

We serves patients with our soul.

20 April, 2022 Admin

Making our patient satisfied with our services is our main goal..we care patient..what condition patient may, we try our best to treat the patient properly..If your doctor suggests a treatment that makes you uncomfortable, ask if there are other treatments that might work. If cost is a concern, ask the doctor if less expensive choices are available. The doctor can work with you to develop a treatment plan that meets your needs.It is just as important to talk with your doctor

Board Conference with team member.

18 February, 2022 Admin

we organize regular board meeting with our teammates..we discuss about critical patient in meeting together and find best treatment for them..regular conference helps us making best decision to give our patient best treatment..many patients have got best treatment by the special doctor who acts accordingly with the decion made on the conference by other expert..our conference team active 24/7 everyday no matter what the time is ?

Here patient read our blogs about our health care . Here they also read our website news which is published. Reading the blogs they can get important tips for taking care our health.

In this section , Patients can book their appointment in schedule time filling up the appointment form in our page. We store this information in our site for further uses. Without filling up the appointment form none can make appointment. Here patients can contact or communicate with us using our contact information to get any help from us regarding health issues. They are also allowed to give their feedback in message option.

Footer Section:

In this section we give our address, email, phone number, quick links, services, social media link etc.

Review: We made a user-friendly website which is fast and efficient. Anyone can easily make appointment and consult with doctor via this website.

Advantages:

1. To protect people's health at low cost.
2. Reduce health sufferings of patients during pandemic.

Limitations:

1. Can't ensure 24hours /7 days services in online. Though having some limitations, we hope can give good services to our patients.
2. We don't have enough doctors for various departments.
3. We don't have enough bed for critical patients.
4. We don't have enough ambulance for critical patients.

Conclusion:

We have started our new health consulting center with few departments, doctors and instruments. We will add more departments, more opportunity for patients in future.
